|---------|------------------------|--------------|------------------------|
| Django  | <div><div></div></div> | python       | <div><div></div></div> |
| Java    | <div><div></div></div> | PostgreSQL   | <div><div></div></div> |
| Next.js | <div><div></div></div> | TailWind CSS | <div><div></div></div> |
| React   | <div><div></div></div> | Typescript   | <div><div></div></div> |

## Certificates

### Certificate of Excellence

Ranked top among 338,528 students in the Grade 12 National Examination for the 2020 academic year.

## Projects

### Perago Systems Website

04/2024 – 04/2024

Along with a fellow worker, I built the official website for Perago Information System. Optimized web pages for performance and scalability. Ensured cross-browser compatibility and responsiveness.

### Database Design, Perago Information Sysytems

03/2024

- Built a responsive front end with Next.js and Redux for efficient.
- Styled the interface using Tailwind CSS and Mantine
- Collaborated with backend teams to integrate APIs and ensure seamless functionality.

### Guzo rentals, a car rental app

01/2024 – 02/2024

- made with a group of 3, it allows user to rent a car
- implemented with java servlets

### Album List, a song App

02/2023 – 03/2023

- Built a responsive album list app with React and Redux for efficient state management.
- Developed a simple backend with Go to handle data storage and retrieval.
